

How to add Books to your Readables

<https://www.youtube.com/embed/rK3uSRpfIRE?si=H9e5HuUNkM-6p2hz>

1. Navigate to your dashboard
2. Select the 'Add a Book' icon on the 'Books Read' widget.
3. Type in the ISBN13 number associated with your book.
 1. You can find your ISBN13 code either on the back of your book or on the first few pages with additional printing and copyright information. It is also possible to find the ISBN13 by searching the book on Amazon and looking at the 'Product Details'
 2. Currently Booktower only supports ISBN13 codes for books. If your book's ISBN is only 10 characters long, then it is an ISBN10 and you'll need to use a converter. We hope to support ISBN10s in the future!
4. Select the Status and Date that will be applied to all books entered.
5. Select 'Add it!' to add the book to your Readables list.

Alternatively, if you wish to add several books at once, select the 'Bulk Mode' icon in the top right.

1. In the bulk mode, enter the ISBN13s of the books you wish to add on separate lines of the text field.
2. Select the Status and Date that will be applied to all books entered.
3. Select 'Add them!' to add them to your Readables list.

Once the books have been added to our system, they will appear in your Readables list! Occasionally, some books require more information and will take longer to appear in your Readables list.
